PHRASE # 1 <Kind $5F00>
Alert \FC has no matching entry in the phrase file. \LThe last command
was \FB. : \FB = the last command attempted

PHRASE # 2 <Kind $4F00>
LisaCalc is having technical difficulties accessing the disk that has the
LisaCalc tool.\L\Put away your documents one at a time or push the on-off
button to save them all.\L\If the problem recurs, refer to the Lisa Owner's
Guide, Appendix 6, Office System Error Messages, under Difficulty Accessing
Disk.

PHRASE # 11 <Kind $0000>
xAx x9x x$x x%x x.9 x.% 9,9 A'A

PHRASE # 100 <Kind $436F>
The Apple-key combination you just typed is not associated with an available
menu item at this time.

PHRASE # 101 <Kind $4740>

```

You cannot edit what is on the Clipboard.

**PHRASE # 102 <Kind \$4F00>**

You cannot paste at the selected location because the Clipboard does not have the appropriate type of material on it at this time. You can paste only text over text and cells over cells.

**PHRASE # 103 <Kind \$5F00>**

The Clipboard no longer has on it the cells that are being moved. \L\LThe formulas that refer to those cells will be restored to the state they were in before the move.

**PHRASE # 104 <Kind \$4740>**

Before you \FB, make a selection.

**PHRASE # 105 <Kind \$4740>**

The selection is protected. \L\LTo edit it, first choose Unprotect from the Protect menu.

**PHRASE # 106 <Kind \$4740>**

You cannot type more than \F9 characters in this location.

**PHRASE # 107 <Kind \$476A>**

Before you \FB, select at least one character.

**PHRASE # 108 <Kind \$4F00>**

You cannot paste at the selected location because the Clipboard does not have text on it at this time. \L\LTo paste text, first cut or copy text to the Clipboard.

**PHRASE # 109 <Kind \$4F00>**

LisaCalc cannot undo the last operation.

**PHRASE # 110 <Kind \$8F00>**

Do you really want to \FB? \L\LThe Clipboard has cells on it which are being moved. The formulas that refer to those cells have been set to error. If you \FB, you may invalidate the move. \L\LTo leave the document as it is now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo.

**PHRASE # 111 <Kind \$8F00>**

Do you really want "\F9" to revert to the version saved \F8? \L\LTo leave the document as it is now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo.

**PHRASE # 112 <Kind \$8F00>**

Do you really want "\F9" to revert to blank stationery? \L\LTo leave the document as it is now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo.

**PHRASE # 113 <Kind \$436F>**

LisaCalc ignores the Enter, Tab, Return, and arrow keys when the selection is larger than a single cell.

**PHRASE # 114 <Kind \$4F00>**

You cannot have more than 255 rows or columns in the spreadsheet. If you

have empty rows or columns available, you can make more room by cutting them or pasting over them.

**PHRASE # 115 <Kind \$5F00>**

The selection contains at least one protected cell. Unprotected cells are being cleared, but protected cells are not. \L\LTo clear protected cells, first choose Unprotect from the Protect menu.

**PHRASE # 116 <Kind \$8F00>**

LisaCalc will not be able to undo this operation. \L\LIf you still want to do it, click OK.\L\LTo leave the document as it is now, click Cancel.

**PHRASE # 117 <Kind \$5F00>**

The document just opened was saved using an older version of LisaCalc. \L\LTo continue working, put away this document immediately and then reopen it.

**PHRASE # 118 <Kind \$4F55>**

Before pasting, cut or copy something to the Clipboard.

**PHRASE # 119 <Kind \$4F00>**

You cannot paste at the selected location because the Clipboard does not have text on it at this time. You can paste only text over text and cells over cells.

**PHRASE # 120 <Kind \$4F00>**

You cannot paste a group of cut cells into a larger number of cells. \L\LTo paste the cells, select the top left cell of the new location and paste again.

**PHRASE # 121 <Kind \$4F00>**

LisaCalc cannot record the information you entered because there is not enough room left in memory. \L\LYou may be able to make more room in memory to accommodate additional changes. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 122 <Kind \$4F00>**

LisaCalc can accept only digits in the number. \L\LRetype the value using number keys only.

**PHRASE # 123 <Kind \$4F00>**

LisaCalc can accept only a whole number between 1 and \F9. \L\LEnter a number in that range.

**PHRASE # 124 <Kind \$4F00>**

LisaCalc cannot copy the cells because there is not enough room left in memory.\L\LYou may be able to make more room in memory. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 125 <Kind \$8F00>**

LisaCalc cannot put the cut cells on the Clipboard because there is not enough room left in memory. Do you want to clear the cells without putting them on the Clipboard?\L\LTo leave the cells as they are now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo. \L\LYou may be able to make more room in memory. Refer

to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 126 <Kind \$1F00>**

LisaCalc cannot display the cells on the Clipboard because there is not enough room left in memory. The cells are on the Clipboard and may be pasted into the document. \\\You may be able to make more room in memory. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 127 <Kind \$7F00>**

One or more of the cells you are trying to paste over is protected.\\\If you want to replace the protected cells, click OK.\\\To leave the selection unchanged, click Cancel.

**PHRASE # 128 <Kind \$4740>**

You cannot \FB while the dialog box is showing.

**PHRASE # 129 <Kind \$4F00>**

FATAL ERROR: \F9 \F8 \F7

**PHRASE # 130 <Kind \$7F00>**

One or more of the cells you are trying to cut is protected.\\\If you want to cut the protected cells, click OK.\\\To leave the selection unchanged, click Cancel.

**PHRASE # 131 <Kind \$3F00>**

LisaCalc is calculating.\\\To terminate the operation, hold down the Apple key while you type a period.

**PHRASE # 132 <Kind \$5F00>**

You asked LisaCalc to save and continue. LisaCalc was able to save "\F9", but there was not enough room left on the disk that has the document to allow you to continue. "\F9" has been put away.\\\You may be able to make more room on the disk. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Room on Disk.

**PHRASE # 133 <Kind \$5F00>**

"\F9" has not been changed since it was last put away.

**PHRASE # 134 <Kind \$1F00>**

To display "\F9", activate the window by clicking once in it.

**PHRASE # 135 <Kind \$8F00>**

The document you are trying to save has a \F8 that has been edited but has not been entered.\\\If you click OK, the changes to the cell will be ignored, and the cell's previous contents will be restored before "\F9" is saved.\\\If you click Cancel, the document will not be saved, and the cell will keep its current contents.

**PHRASE # 136 <Kind \$5F00>**

Finish editing the \F9 and enter it before putting away the document.

**PHRASE # 137 <Kind \$3F00>**

LisaCalc is performing the \FB.

**PHRASE # 138 <Kind \$3F00>**

LisaCalc is saving the latest version of "\F9".\L\LTo terminate the operation, hold down the Apple key while you type a period.

**PHRASE # 139 <Kind \$4F00>**

LisaCalc is having technical difficulties understanding what is on the Clipboard. It cannot complete the paste.\L\LIf the original material still exists, copy it again.

**PHRASE # 140 <Kind \$4F00>**

LisaCalc cannot \FB because there is not enough room left in memory.\L\L You may be able to make more room in memory. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 141 <Kind \$4F00>**

LisaCalc cannot save this version of "\F9" because there is not enough room left on the disk that has the document. \L\LYou may be able to save "\F9" by setting it aside and then moving it to another disk or by making more room on this disk. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Room on Disk.

**PHRASE # 142 <Kind \$4F00>**

LisaCalc is having technical difficulties saving this version of "\F9". \L\LYou may be able to save the document by setting it aside and then moving it to another disk. \L\LSave your other documents soon, particularly those that are on the same disk. \L\LIf the problem recurs, refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Saving Document.

**PHRASE # 143 <Kind \$4F00>**

LisaCalc is having technical difficulties saving this version of "\F9". \L\LYou may be able to save the document by setting it aside and then moving it to another disk. \L\LSave your other documents soon, particularly those that are on the same disk. \L\LIf the problem recurs, Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Accessing Disk.

**PHRASE # 144 <Kind \$5F00>**

LisaCalc has terminated saving "\F9" because you typed Apple-period. \L \LThe document has not been saved.

**PHRASE # 145 <Kind \$5F00>**

The Clipboard has cells on it which are being moved.\L\LDo not change what is on the Clipboard if you want to complete the move.

**PHRASE # 146 <Kind \$4F00>**

You cannot paste at the selected location because the range of cells selected does not match the range of cells that are on the Clipboard. \L\LTo paste the cells, select the top left cell of the new location and paste again.

**PHRASE # 147 <Kind \$5F00>**

LisaCalc cannot save what is on the Clipboard because there is not enough room left in memory. \L\LYou will be able to paste what is on the Clipboard into this LisaCalc document but not into any other document. \L\LYou may

be able to make more room in memory. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 148 <Kind \$1F00>**

LisaCalc is having technical difficulties and cannot allow you to continue editing your document. LisaCalc is attempting to record all changes to "\F9" since it was last opened. \L\LIf this document appears to be damaged the next time you open it, choose Revert to Previous Version from the File/Print

menu. \L\LIf the problem recurs, refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Damaged Document.

**PHRASE # 149 <Kind \$3F00>**

LisaCalc is reverting to the version of "\F9" saved \F8.

**PHRASE # 150 <Kind \$5F00>**

LisaCalc cannot save the text version of the data on the Clipboard because there is not enough room left in memory. \L\LYou will be able to paste only to a LisaCalc or LisaGraph document. \L\LYou may be able to make more room in memory. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 151 <Kind \$8F00>**

LisaCalc will be able to restore the previous version of "\F9" but will be unable to remember what is on the Clipboard because there is not enough room left on the disk. \L\LYou may be able to make more room on the disk. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Room on Disk. \L\LTo leave the document and the Clipboard as they are now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo.

**PHRASE # 152 <Kind \$5F00>**

Complete the move by pasting the cells on the Clipboard to their new location. LisaCalc will then correct the formulas that refer to those cells.

**PHRASE # 153 <Kind \$8F00>**

LisaCalc will be able to put away "\F9" but will be unable to remember what is on the Clipboard because there is not enough room left on the disk. \L\LYou may be able to make more room on the disk. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Room on Disk. \L\LTo leave the document and the Clipboard as they are now, click Cancel. \L\LOnce you click OK, you will not be able to change your mind, even by choosing Undo.

**PHRASE # 154 <Kind \$1F00>**

The Clipboard cannot be displayed until a LisaCalc document is opened.

**PHRASE # 155 <Kind \$5F00>**

LisaCalc will be able to put away "\F9" but will be unable to remember the text version of what is on the Clipboard because there is not enough room left on the disk. \L\LYou will be able to paste only to a LisaCalc or LisaGraph document. \L\LYou may be able to make more room on the disk. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Room on Disk.

**PHRASE # 156 <Kind \$8F00>**

LisaCalc is having technical difficulties and is unable to restore your document to the state it was in when the tool failed \F9. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Accessing Disk.\L\LlisaCalc could discard the damaged version of "\F8" and revert to the version you saved \F7.\L\LIf you want to revert to the last saved version of "\F8," click OK.\L\LTo leave the document in its current state, click Cancel.

**PHRASE # 157 <Kind \$5F00>**

LisaCalc has cleared the page marks you have set, but the selection contains at least one default page mark which cannot be cleared.

**PHRASE # 158 <Kind \$4F00>**

You cannot paste at the selected location because the range of selected cells does not match the range of cells that are on the Clipboard.

**PHRASE # 159 <Kind \$8F00>**

Do you really want to invalidate the move?\L\LIf you click Cancel, the move may be completed later.\L\LIf you click OK, the Clipboard will no longer have on it the cells that are being moved. The formulas that refer to those cells will be restored to the state they were in before the move.

**PHRASE # 160 <Kind \$5F00>**

The document just opened has had its foreign formats converted to local data formats.

**PHRASE # 161 <Kind \$5F00>**

This document is formatted for a printer that has a proportionally spaced print wheel. LisaCalc can display and print the spreadsheet only in fixed pitch.\L\LlisaCalc will display the spreadsheet using the fixed-pitch font you chose from the Type Style menu.\L\LWhen you print the document, LisaCalc will not space the characters proportionally.

**PHRASE # 162 <Kind \$5F00>**

This document is formatted for a printer that has a proportionally spaced print wheel. LisaCalc can display and print the spreadsheet only in fixed pitch.\L\LWhen you print the document, LisaCalc will not space the characters proportionally.

**PHRASE # 163 <Kind \$5F00>**

This document is formatted for a printer that has a fixed-pitch print wheel containing a different font from the one you chose from the Type Style menu.\L\LlisaCalc will display the spreadsheet in the font of the print wheel, not in the font you chose from the Type Style menu.

**PHRASE # 164 <Kind \$5F00>**

This document is formatted for a printer that has a fixed-pitch print wheel containing a different font from the one you chose from the Type Style menu.\L\LlisaCalc will place page breaks based on the font of the print wheel, not on the font you chose from the Type Style menu.

**PHRASE # 165 <Kind \$5F00>**

LisaCalc will display the spreadsheet using the fixed-pitch font you chose from the Type Style menu. However, this document is formatted for a printer that has a proportionally spaced print wheel. LisaCalc can display and print only in fixed pitch.\L\LWhen you print the document, LisaCalc will

not space the characters proportionally.

**PHRASE # 166** <Kind \$5F00>

LisaCalc will display the spreadsheet using the fixed-pitch font you chose from the Type Style menu. However, this document is formatted for a printer that has a proportionally spaced print wheel. LisaCalc can display and print only in fixed pitch. When you print the document, LisaCalc will not space the characters proportionally.

**PHRASE # 167** <Kind \$5F00>

This document is formatted for a printer that cannot print the font you chose from the Type Style menu. The font will be associated with the document. However, the font will not be displayed or printed as long as Show Actual Size is in effect. To display and print the font you chose, specify a different printer or print wheel by choosing Format for Printer from the File/Print menu.

**PHRASE # 168** <Kind \$5F00>

LisaCalc will display the document using the fixed-pitch font you chose from the Type Style menu. However, this document is formatted for a printer that has a fixed-pitch print wheel that cannot print the font you chose. When you print the document, LisaCalc will use the font on the print wheel that is closest to the one you chose from the Type Style menu.

**PHRASE # 171** <Kind \$7F00>

This document is formatted for a printer that has a proportionally spaced print wheel. LisaCalc can display and print only in fixed pitch. LisaCalc will not space the characters proportionally when you print the document. To print it anyway, click OK. To format the document for a fixed-pitch font, click Cancel; then specify a different printer or print wheel by choosing Format for Printer from the File/Print menu.

**PHRASE # 172** <Kind \$7F00>

This document is formatted for a printer that has a fixed-pitch print wheel containing a font different from the one you chose from the Type Style menu. To print it anyway, click OK. To stop and reformat the document, click Cancel. Then specify a different printer or print wheel by choosing Format for Printer from the File/Print menu; or choose a different font from the Type Style menu.

**PHRASE # 181** <Kind \$AF00>

The daisy wheel printer cannot print all the fonts in your document.

**PHRASE # 182** <Kind \$5F00>

LisaCalc cannot save the text version of the data on the Clipboard because it is too large to fit on a standard piece of paper. You will be able to paste only to a LisaCalc or LisaGraph document.

**PHRASE # 190** <Kind \$4F55>

You cannot print a blank document.

**PHRASE # 191** <Kind \$4F55>

LisaCalc is having technical difficulties formatting the spreadsheet for printing. However, you may continue to edit the spreadsheet. If the problem recurs, refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Printing.

**PHRASE # 192** <Kind \$4F55>

LisaCalc is having technical difficulties printing the spreadsheet. However, you may continue to edit the spreadsheet.\\L\\LIf the problem recurs, refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Printing.

**PHRASE # 193** <Kind \$4F55>

<Phrase has length of zero>

**PHRASE # 194** <Kind \$4F55>

LisaCalc is having technical difficulties monitoring the printer. However, you may continue to edit the spreadsheet.\\L\\LIf the problem recurs, refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Difficulty Printing.

**PHRASE # 195** <Kind \$4F55>

Organic problems have arisen while printing your document.

**PHRASE # 5001 <Kind \$4F00>**

You cannot type arithmetic operators into the Cells area of the status panel. \\Enter a cell coordinate in the form of a column letter followed by a row number.

**PHRASE # 5002 <Kind \$4F00>**

The cell coordinate you typed contains a column letter outside the range of the matrix. \\Enter a column letter between A and IU.

**PHRASE # 5003 <Kind \$4F00>**

The cell coordinate you typed contains a row number outside the range of the matrix. \\Enter a row number between 1 and 255.

**PHRASE # 5004 <Kind \$4F00>**

The cell coordinate you typed contains a row number or a column letter outside the range of the matrix. \\Enter a cell coordinate between A1 and IU255.

**PHRASE # 5005 <Kind \$4F00>**

The cell coordinate you typed has a character in it that LisaCalc cannot recognize. \\Enter a coordinate in the form of a column letter followed by a row number.

**PHRASE # 5006 <Kind \$4F00>**

You cannot use the row or column separator in cell coordinates. \\To specify a range of cells, enter the top left coordinate and the bottom right coordinate, separated by a colon.

**PHRASE # 5007 <Kind \$4F00>**

You cannot use the row or column separator in a formula. \\To specify a range of cells, enter the top left coordinate and the bottom right coordinate, separated by a colon.

**PHRASE # 5008 <Kind \$4F00>**

LisaCalc could not recognize the character you just typed. \\Please retype the character.

**PHRASE # 5009 <Kind \$4F00>**

LisaCalc cannot understand \\F9 and \\F8 in the order in which they appear. \\Check what you typed for errors.

**PHRASE # 5010 <Kind \$4F00>**

The date value you specified is not a valid calendar date.

**PHRASE # 5011 <Kind \$4F00>**

The formula you typed is missing a quotation mark as part of a text or date value. \\Enclose text and date values in quotation marks.

**PHRASE # 5012 <Kind \$4F00>**

LisaCalc cannot understand the formula. Break up the formula by placing parts of it in different cells.

**PHRASE # 10000 <Kind \$5FFF>**

LisaCalc could not finish the calculation in 30 seconds. You may have circular references. Some values may not have been calculated correctly. To ensure that the values are correct, select Calculate Now from the Calculate menu.

**PHRASE # 10001 <Kind \$4F00>**

LisaCalc cannot finish the calculation because there is not enough room left in memory. You may be able to make more room. Refer to the Lisa Owner's Guide, Appendix 6, Office System Error Messages, under Insufficient Memory.

**PHRASE # 10002 <Kind \$5F00>**

There are no missing values below the selection.

**PHRASE # 10004 <Kind \$4755>**

You cannot type while formulas are showing. To enter values, choose Show Values Only from the Calculate menu.

**PHRASE # 10005 <Kind \$5F00>**

LisaCalc has terminated the calculation because you typed Apple-period. Some values may not have been calculated correctly. To ensure that the values are correct, select Calculate Now from the Calculate menu.

**PHRASE # 15001 <Kind \$4F00>**

The formula you entered has an unmatched left parenthesis. Check for an extra left parenthesis or add a matching right parenthesis.

**PHRASE # 15002 <Kind \$4F00>**

The function you entered is missing its arguments.

**PHRASE # 15003 <Kind \$4F00>**

You cannot use the \F9 constant at this location.

**PHRASE # 15004 <Kind \$4F00>**

The formula you entered is missing one of the operands for \F9.

**PHRASE # 15005 <Kind \$4F00>**

A coordinate range cannot be an argument at this location to the \F9 function.

**PHRASE # 15006 <Kind \$4F00>**

The \F9 function requires a coordinate range as an argument at this location.

**PHRASE # 15007 <Kind \$4F00>**

The \F9 function has too many arguments.

**PHRASE # 15008 <Kind \$4F00>**

The \F9 function does not have enough arguments.

**PHRASE # 15009 <Kind \$4F00>**

You cannot use commas to separate numbers within a formula.

**PHRASE # 15010 <Kind \$4F00>**

The formula you entered contains an invalid reference to its own coordinates.

**PHRASE # 15011 <Kind \$4F00>**

LisaCalc cannot understand the formula. Break up the formula by placing

parts of it in different cells.

**PHRASE # 15012** <Kind \$4F00>

The formula you entered has an unmatched right parenthesis. \L\LCheck for an extra right parenthesis or add a matching left parenthesis.

**PHRASE # 15013** <Kind \$4F00>

You cannot use the \F9 function within the \F8 function.
